

# Craft Stick Loom

*Use craft sticks and rubberbands to make a woven wall hanging*

**MATERIALS NEEDED:** Natural Wood Craft Sticks, 4-1/2" x 3/8", Craft Glue, Rubber Bands (2.5" diam.), Scissors or Paper Cutter, Tru-Ray® Construction Paper

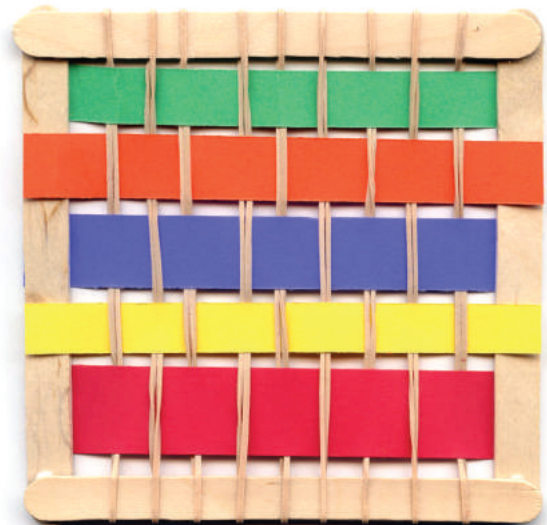

1. Glue four craft sticks together at ends. Make sure ends touch each other so that the square is as wide as can be. Let dry for about an hour.

2. Slide at least nine rubberbands onto square as shown. Spread them out evenly.

3. Cut strips of paper about 7" long by varying widths (1/4" to 1/2"). Weave strands of paper into the rubber bands and pull to center. Push all strips up to make room for as many more as possible.

4. Continue weaving strips of paper until the board is full. Trim ends. Add a string hanger to display, if desired, by tying the ends to the corners.
